To all Desirous of Securing the Benefits of Life Insurance

The first consideration with applicants for life insurance is, or at least should be, SAFETY. WILL THE MONET PAID OUT FOR THE POLICY BE PRODENTLY INVESTED? ARE THE APPAIRS OF THE COMPANY HONEST LY AND ENVICENTLY ADMINISTERED? WHEN THE POLICY BECOMES A CLAIM WILL IT BE PROMPTLY PAID, and thus the object which induced the payment of the premiums be fully attained? These are queries natura ly suggested, and the character of the answers determines the course of the questioner and the selection

In this connection, the Managers of the PACIFIC MUTUAL LIFE INSURANCE COM-PANY respectfully beg leave to submit the following facts and statements concerning the Company.

ablest financiers of the State of California, and the integrity of their management is unquestioned. 5. The laws of the State, including the constitutional provisions effecting corporations, are of the

most rigid character, such as to make the company one of the safest institutions of its kind Section 3, of Article XII of the NEW CONSTITUTION of the State of California, is as follows:

Sec. 3. Each steckholder of a corporation or joint stock association shall be individually and personally liable for such properties of all its debts and liabilities contracted or incurred during the time he was a stockholder, as the amount of stock or shares outed by him, hears to the whole subscribed capital stock or shares of the corporation or association. The Directors and Trastess of corporations and joint stock associations, shall be jointly and severally liable to the creditors and stockholders for all moneys embeggled or misappropriated by the officers of such corporation or joint stock association, during the term of effice of such Director or Trustee.

6. Its policy contracts contain no restrictions upon residence or travel, and its forms of insurance are unusually attractive. The Low Rate, Deposit Endowment, and Mutual Insurance Policies, are peculiar to this Company, and offer advantages to the insured which are not surpassed, if equalled, by those of any

The anniversary of the birthday of Her Majesty Queen Victoria approaches; an occasion when every true Briton feels like doing something good and generous; and we venture on this reminder, in the hope that every member of the British Benevolent Society who attends the meeting on the day will be prepared not only with his due, but a donation, in order to fully honor the Imperial Lady's anniversary in these

Mr. L. G. Sresovich, of San Francisco, is on a flying visit to Honolulu, on business connected with his branch house here. He is an extensive exporter of California fruits, and enjoys almost a monoply of our banana export, in which so many of our small cultivators are interested. We heartily wish him success in promoting the fruit trade, and hope he may have here an enjoyable and profitable visit.

A census of the United Kingdom of Great Britain and Ireland was to be taken on 4th inst. The Imperial Government is anxious to obtain information as to the number of British subjects who were scattered abroad in other parts of the globe at that date, and to that end has invoked the aid of the Colonial Governments and the Resident Ministers and Consuls throughout the world. The British Commissioner here Major J. H. Wodehouse has been requested to furnish the required particulars as to the subjec of Queen Victoria resident in this Kingdom.

The temperance movement bids fair to be an active and we hope a successful one. The meetings held so far have been well attended and the several committees are in good working order. On Monday evening, May 2d, there will, be held at the Fort Street Church Vestry a temperance entertainment at which addresses will be given by Judge A. F. Judd and W. R. Castle, Esqr., also recitations, and instrumental and vocal music, at which Mrs. Pierce, Mrs. Brown, Mrs. Damon, Mr. W. W. Hall, Mr. C. M. Cooke and Mr. Hitchcock will assist. All are welcome,

Our neighbor Gazette says that the "medical fraternity," ignore the word "palmation," as applied to any medical examination; and thinks that "palpitation" was perhaps intended. Now what has the medical faculty to do with "palpitation," as a means of medical examination. We wrote palpation; but our compositors, who like a big show of ems, would stick one in, just to give our neighbor a chance to make a point on "palpitation." Please read Mr. Castle's short letter on typographical errors, in your own paper, and be modest and eareful in your corrections of

Four constables have been discharged by order of the Chief Justice. The investigation of police administration in this Kingdom, reported to the late Legislative Assembly, and strongly advocated by the senior member for Lahaina, is greatly needed now, and has been for some time. This is now the second time, since the Legislature closed it: session without attending to this mportant matter, that His Honor has found it necessary to use the authority vested in him by the Civil Code and interfere to correct police abuses by peremptority discharging officers of the force. The names of the discharged officers are Wallace, Mehrtens, Akana Kalauki, and

John Bo'abola. We are glad to welcome again, the U. S. Flagship Pensacola in our waters. Her name is very familiar to our citizens, especially in association with the honored name of Admiral Almy. And some of his officers, whom we are happy to see return with Admiral Stevens, will we trust find pleasant opportunity to renew an agreeable intercourse, which our society we feel assured, will be happy to reciprocate. Some of the officers of the Pensacola on a former visit, accompanies his Majesty the King, whilst engaged tree plant ing on Punch Bawl. It will be interesting for

hese gentlemen to notice the progress in

growth of our groves since they were here

The wint of proper condways in that parof the town which lies between the river and Liliha street is being seriously felt by property owners and residents there. It is possible to get a vehicle from Smith's Bridge to King street, but the road is in a frightful state. To penetrate in any other direction with cart or carriage is impossible. This state of things depreciates the value of a considerable amount of property. whose owners would be only too glad to contribute something to the cost of forming one or two much needed streets in the locality. Many buildings would be now going up there if proper there any form of Municipal Government here these people would know who to apply to, but if they go to the overworked Minister of the Inanswer that there is "no appropriation."

The news from Peru which we received by the men-of-war lately arrived from that quarter is not re-assuring. The American Governatv-thr a dollars | ment tried to mediate between the contending parties before the capture of Lima, and even "hilean authorities showed that they to listen to mediation as a possi-

moreing such terms as they chose distate. Since they occupied the capital of the enemy's country, they have made evident their intention of grinding the conquered into the dust. There can be but little doubt that they would have utterly destroyed Lima as they have oth riowns, but for an intimation given them that foreign interests were too deeply involved for such a thing to be permitted. Now they want to exact an indemnity utterly out of proportion to the means of the Peruvians. Fortunately for the latter, the governments of England, France, and Italy, have looked upon the position as one of national interest, and have offered to mediate between the conquered and the conquerors. It is to be hoped that in doing so they are prepared to enforce their opinions on Chile, should she appear disposed to hold to her \$5 per day—the wages of a quarantine guard on present arrogant pretentions.

There is an ingenious illustration of the present condition of the American mercantile marine on the last page of Frank Leslie's Illustrated paper of the 9th inst., entitled "The fiction that there is an American Flag on the Seas.' On one side is a picture representing "the flags under which the first settlers arrived in America; Spain, Portugal, and England in the van with France close behind. On the other hand is an illustration of " The flags under which Americans go abroad in 1881" showing tourists on the wharves making for vessels carrying English, French, German and other national flags, but no Stars and Stripes" any where in view.

The monthly meeting of the Honolult Cricket Club, will be held in the Pacific Hose Co.'s Rooms, on Wednesday evening next, at half-past seven o'clock, (Tuesday, the usual date, being appropriated to "Pinafore" practice.) Amongst the business of the evening will be the question of adopting the rules which were approved at last meeting. Th condition of the cricket ground will no doubt also occupy the attention of the club. There is to be a general "beat up" with the view of bringing the whole club together for once in a way, and each member is expected to remind every other member whom he meets on Wednes day, that he is expected to turn up at 7.30 P. M. sharp. The President, Major Wodehouse, has promised to take the chair, and notice of the meeting and a copy of the proposed rules will b sent by the Hon. Secretary to each member of

Somebody gave evidence lately that ealousy was a passion which, above all others, made a Hawaiian beside himself. Experience does not show that the Hawaiian is at all singular in this respect. Four Chinamen were arraigned before the Police Magistrate last week for assault and battery. The wife of one of them went to get her supper at Ilama's eating house where her father, who is a Hawai ian, takes his meals. The father seems to have feared mischief and told her to go home, but she preferred to take her own way. Presently the husband came in, but as her supper was then ready she tried to persuade him to wait for her. He however went off, evidently greatly incensed, and presently returned with three companions. They attacked Hama and one of them wounded him with a knife, making blood flow. This result seems to have quieted the icalous husband. The man who used the dangerous weapon was fined \$8 and costs and the charge against the others was dismissed.

The British Commissioner, Major J. H. Wodehouse, has paid an official vist to Kauai, to investigate several complaints of ill-treatment made by men who had entered into contracts to work on the Kilauea Plantation. The result of the Commissioner's investigation is to show that that there was no sufficient foundation for the grave allegations of the complainants, and that anything, to which they might have been excused for objecting, had already been remedied. Besides the complaint addressed to the Commissioner, there was an older grievance to investigate. The friends of the complainant had, in this case, moved the British Secretary of State to interfere in their affair so far as to request the Commissioner to make an enquiry. Their contracts for a fixed period seem to have been the sore point with the complainants, and though they could not claim that they had entered into them otherwise than with their eyes open, the Manager of the Plantation has voluntarily cancelled these contracts, and they are now working as free men, and can leave their employment whenever it becomes distasteful to them. Some people are of opinion that white labor on plantations, when obtainable, is more valuable, cost for cost, than any other. His many opportunities of observation have led Major Wodehouse to a contrary opinion; so perhaps if the Manager of Kilauea should find his men disposed to take wing, he may not feel that he is any loser thereby.

The U. S. S. Pensacola, Flagship of the American squadron in the Pacific, and bearing the pennant of Rear Admiral Thomas H. Stevens, arrived in port at 6:30 p. m. on the 29th inst. 47 days from Callao, Peru, via Hilo and Lahaina. off the forbidden space, chalk my dead line, and Admiral Stevens is accompanied by his wife and then let the beggars who are on the trade, blazedaughter. Were because these gentlemen were known to be and because the accounts out of which the case arose are too voluminous and intricate for a terior he will only give them the stereopyted | judge and jury to investigate in Court. Such at least is the usual origin of such references, and it is to be assumed that it was so in this case. Professional and business men, so employed, usually make their own charges, which though is held by the Court here that referees, in such cases, are not entitled to be paid as professional or business men, for their time and trouble, as they would be if their services were similarly engaged in matters not before the Court, but that they are to be looked upon as jurors, serving their country patriotically, not as giving the benefit of their knowledge and experience to other men as a matter of business. The referees in the case under review charged \$50 each. One of the referees was appointed by the Court. The other two acted at the request of the parties to the suit, and it would be interesting to know how His Honor would charge the jury, should he have to try an action for "services rendered" brought by one of them against the party who asked him to act as referee. Any way our pro-

fessional and business men will do well to be

wary of being entrapped into giving others the benefit of their life long experience of affairs for

(Communicated.) STREET TALK

An old fellow who signs himself "Vincit" is seriously exercised about the improper tone of some of my remarks, and gets up some indignation against the P. C. ADVERTISER in general; but consoles himself with the assurance that he and several of his friends will not be obliged to read it much longer, as the prepaid term of subscription will expire in a few weeks.

Now this reminds me of a man I saw at Hop Yick's feed crib, the other day. He was tucking in a mess of corn beef, cabbage, and potatoes, along with some sausage, mango pie, and solid saleratus cake, all at the same time, when he came across a bit, that gave him a sour brash, and made him feel a peculiar inwardness. He ooked at his platter with a puckered grin, and giving a shake of his head and drawing in his breath with a hissing sound of suction, said, between his teeth ; "Well, I've gone my quarter on you, and I'm bound to worry you down." And so this sordid dog, Vincit, is bound to swallow the ADVERTISER, bad as he says it is, so ong as he has a bit or two invested in its perusal.

As I heard several folks say on the street that Charlie Judd will be back on the next steamer ; and as he and I had been chums-and wanting to feel sure about his coming, I dropped in on a rusty old official for information; and he let lown on me as follows :

"I am not aware, sir, that there is any official notice of the return of the Lord Chamberlain, but it is possible that he will be back shortly to attend to the assessorship of this district. It is true that he and his family now hold nineteen official and honorary positions, yet they will not neglect this twentieth one; as it may have some olitical, as well as fluancial bearing · What! Nineteen government jobs in the Judd family," I exclaimed with open mouthed amazement, as I had not been looking into

"I did not say jobs, young man; but official and honorary positions. They hold-two portfolios, four Commissions as Privy Councillors, two Presidencies of Boards, two Patents of Nobility, two Commissionerships of Crown Lands, three Memberships of Boards, one Judgeship, and four decorations of honorary orders of this ountry, besides foreign decorations. "Hold on!" I exclaimed, "you have now

numerated twenty billets without the Assessorship, which makes twenty-one; or a royal round of official honors:-surely the Judd family is a coval one and must have some grip or grit, or go, to hold on to so much sway and swag in one independant kingdom.' I shall think more of Charlie when he gets back, especially if he comes in his Japanese toggery, with the order of the Chrysanthemum and

two or three Mandarin tails besides. "My son," said old pub. func. grimly, "The large official holding you admire so much, is not owing to any of the qualities you so tersely and suphoniously state; but chiefly to the fact that some are sons of their fathers, and others are the husbands of their wives." A "SPECIAL."

for some time I was glad to tell him that I had got him a job, to dig and grub and do some tree planting in a nabob's lot out on the plains, at a "Not much, old fell, said he, dropping his right eye lid, and protruding his tongue from the

"Well, you see, sonny, this is the way of it There is Jones-not our Jones, not Peter but P. C. who is a big spoke in the Pahala concern, where I teamed it a while. And Jones said he'd got to go, and look after the morality, and the mules and other matters of that plantation, and he persuaded his pard, the President of the Board of Stealth, that he had to hurry up, and could not be bothered with an embargo in sick bay for a term of weeks, but must get off by the first Iwalani, and if his pard, the President could not trust his honor, or parole on the trip, as perhaps he knew him too well, he would take a policeman along, as travelling guard, who would take care that nobody should come within fifteen feet of him. And Simmons, you know, who was looking for a job like myself, and wanted to go wind ard, any how, goes up with Jones at \$4 a day, and travelting expenses, and so I am on the same lay. I've just found an old fellow, lousy with dums, who says he wants to go and look at a plantation on Hawaii, and as there is a brigade planters who want to sell, he will no doubt get a permit to go, and I am to go with him as special billy. Now you see, as the quarantine instructions are not to let any one come within fifteen feet of the bird you are set to watch ; I've got me a two foot rule and a piece of chalk, holding up the two articles,) so I can measure

ignominious dollar a day job.

RACES.—This afternoon there will be a trotting race at Kapiolani Park. Mile heats, best three in five. Four horses are entered, King William, Dolly Varden, Butcher Boy and Little Giant, and the stakes are \$100 each. The U.S. National Trotting Rules are to govern the race "except as per agreement." It is to be hoped that if any "agreements" are made as to the conditions of the race they will be drawn up in a binding manner and signed by all the interested parties, so that disputes may not arise. It is most undesirable that appeals to the Supreme undoubtedly subject to taxation, as between Court should have to be made about sporting party and party, are in fact seldom disputed. It matters. > THE FUSION NAW 18 a circular iron disc, 42 inches in diameter and two-tenths inch thick. It is given a velocity of 2300 revolutions per minute, representing at the circumference a tangential velocity of 25.250 feet. Then the cold steel bar which is to be cut is placed in front of the disc and made likewise to revolve with a speed or 200 revolutions per minute. Under these conditions, as soon as the bar arrives in proximity to the disc, there is produced on its surface a little drop of molten metal, and in a few seconus afterwards a notch, and this without the disc ever having touched the bar. The rotary motion of the bar facilitates the flow of the molten metal, and the separation of the metal never takes place by contact, but only by melting .-Scientific American.
